Profile

With over a year of hands-on experience, I'm a passionate software developer focused on transforming complex ideas into intuitive, user-centered digital experiences. With a strong passion for web development, I bring a diverse skill set that includes proficiency in programming languages such as HTML, CSS, JavaScript, Bootstrap, Tailwind, React, Redux, Node among others. My experience extends to developing responsive websites and web applications, emphasizing the significance of user experience and user interface design.

Experience:

Merik Solutions | React Developer | Feb 2023 to Present

- Played a key role in developing and maintaining large-scale web applications, utilizing React, JavaScript, and Redux to deliver seamless and responsive user experiences.
- Collaborated closely with designers and backend developers to integrate APIs, improve user experience, and ensure cross-browser compatibility and mobile responsiveness.
- Contributed to building reusable components and implementing state management using Redux, optimizing code efficiency and maintainability across multiple projects.
- Enhanced website performance by identifying and resolving UI bugs across various projects, leading to improved site reliability and user satisfaction.
- Participated in Agile methodologies, including Scrum, to meet project deadlines, deliver high-quality software, and assist in migrating legacy codebases to modern frameworks.

Education:

- BS Software Engineering | 2022 | Iqra University | Islamabad

Certifications

- React Developer | 10Pearls Pakistan | 2024 | Islamabad
- Web Developer | 10Pearls Pakistan | 2023 | Islamabad
- MEAN/MERN Stack Development | DevSpot Pvt. Ltd. | 2023 | Islamabad

Skills & Abilities

- React, JavaScript, TypeScript, Redux,
- HTML, CSS, Bootstrap, Tailwind, Material UI
- Node.js, Rest APIs, Git and GitHub for version control
